FOREWORD

The information contained in this Service Manual has been prepared for the professional automotive technician involved in daily repair operations. Information describing the operation and use of standard and optional equipment is included in the Owner's Manual provided with the vehicle.

These diagrams contain the latest information at the time of publication and incorporate the wiring schematic for the basic vehicle and available optional equipment.

The diagrams are grouped by body type and sales division. The body codes are explained in the General Information section. (Example—AP-D, P=Shadow, Sundance). To locate a system or component refer to the black index tabs on the next page. The tab will assist you in locating the desired area of the manual.

An alphabetical index is provided at the beginning of each section to help you in locating a system or component. All diagrams are identified by SHEET NUMBER which is found in the lower right- or left-hand corner of the page.

A Service Manual Comment form is included at the rear of this manual. Use the form to provide Chrysler Corporation with your comments and suggestions.

Chrysler Corporation reserves the right to change testing procedures, specifications, diagnosis, repair methods, or vehicle wiring at any time without prior notice or incurring obligation.

NOTE: The acronyms, terminology and nomenclature used to identify emissions related components in this manual may have changed from prior publications. These new terms are in compliance with S.A.E. recommended practice J1930. This terminology standard (J1930) is required to comply with the 1993 California Air Research Board (CARB) requirements.
